We oppose the construction of industrial wind power turbines on Vermont's ridgelines.

1. **The energy benefits are minimal.**
2. **The addition of noise, light, and visual pollution is unacceptable.**
3. **The negative impact to the land and to wildlife is significant.**
4. **The harm to Vermont's rural character far outweighs unreliable pay-offs to affected towns and individuals.**

(See www.vermonterswithvision.org/vwvpetition.html for more information.)
